EDUCATION

CVM University

Bachelors of Engineering in Computer Engineering, 9.10 CGPA

WORK EXPERIENCE

Full-Stack Engineer Intern

Logic Cube IT Pvt. Ltd.

May 2024 – June 2024 Ahmedabad, Gujarat

VV Nagar, Gujarat, India

2021 - 2025

• Collaborated with a team of 5 engineers to develop a microservices architecture-based full-stack CMS platform.

Developed high-performance APIs using Nest.js, TypeScript, and MongoDB with Prisma ODM.

• Fixed bugs on front-end that were causing the platforms to crash and security bugs that were leaking the sensitive information.

PERSONAL PROJECTS

Google Flights Microservices - LINK

• Engineered a scalable microservice architecture for an airline booking backend using Node.js, Express.js, and MySQL with Sequelize ORM.

• Implemented key features such as user authentication, request authorization, flight search, booking management, reminder services, and rate limiting.

• Integrated API gateway for centralized management ensuring reliable performance.

FinShark API - LINK

• Developed a Stock Market/Social Media API using ASP.NET Core, enabling users to manage equities, comment on stocks, and maintain personalized portfolios, leveraging Entity Framework Core for database interaction.

• Implemented JWT-based authentication with Identity Core, extending IdentityUser to manage user-specific data like portfolios.

• Applied best practices such as Repository Pattern, DTOs, data validation and developed features like sorting, pagination, and filtering to enhance the API's performance and usability.

CitizenVoice - LINK

• Created a QR Code Based Citizen Feedback System for Gujarat Police using the MERN stack, developed in just 7 hours.

• Presented at the SSIP 2.0 Vibrant India hackathon 2023, where 4 out of 5 jury members commended the implementation.

• Implemented OTP-based authentication and feedback monitoring.

TECHNICAL SKILLS

Languages: Javascript, Typescript, Java, C#

Libraries/Frameworks: React, Node, Express, Mongoose, ASP.NET Core

Databases/ORM: MongoDB, MySQL, Sequelize, Prisma, Entity Framework Core

Developer Tools: Git Version Control, GitHub, Postman

Additional: Familiar with RESTful API design, Microservices architecture, Azure App Services
